

TUGEVUS ALGAB JUUREST

Strength Begins from Roots

ILJA UHLINOV

Soovin lõputööga pöörata tähelepanu minu meelest olulisele ja aktuaalsele teemale, mis puudutab nii ühiskonda kui ka iga inimest eraldi. Kuna meie tulevik on seotud tänase päeva ja minevikuga, arvan, et loomaks midagi head tulevikus peab väga hoolikalt ja erineva nurga alt vaatama ning hindama oma tulevikku.

Tuleb teha objektiivseid järeldusi ja ehitada oma elu sellele kogemusele, suhtudes austusega oma kultuuri ning anda järgmistele põlvkondadele edasi eetika ja moraali põhiaspekte: ausus, truudus, armastus teiste inimeste ja looduse vastu.

Töö praktilise osana valmis gobelään, mille põhiidee on - "tugevus algab juurtest".

With this final work I wish to pay attention to a very important and topical issue that concerns the society and also each person separately.

Since our future is related to the current day and also to the past, I believe that in order to create something good in the future, one must look assess their past very carefully and from different angles. It is important to draw objective conclusions and based on that experience to build one`s life while respecting their culture, and pass on to the future generations the main aspects to ethic and morality: honesty, faithfulness, love for other people and nature.

A tapestry carrying the idea "strength begins from roots" is completed as a practical part of my final work.
